# About Times Zones

**TIMES ZONES** — a pioneering innovation model, designed to foster the growth of startups and disruptive technologies.

Times Zones is not just a brand, but a symbol of global vision and a commitment to shaping the future through innovation.

**10+**  
**COOPERATION PARTNERS**

Supporting and accompanying partners in ecosystem development.

**10+**  
**GREEN WORKSPACES**

Workspaces connected to domestic and international capital and trade markets.

**A member of the Linh Nam Ecosystem**

Times Zones is a member of the Linh Nam Ecosystem (Linh Nam Group) — sharing resources, infrastructure and partner networks to create sustainable value for businesses and the innovation startup community.

# Mission & Vision

## OUR MISSION

Times Zones not only provides advanced technology solutions but also invests significantly in infrastructure, expertise and a global network to support businesses. We build a solid foundation that helps businesses apply technology effectively, expand their scale and connect with international partners and customers – committed to accompanying businesses in conquering the global market.

## OUR VISION

Times Zones is not just a project but a deep connection between space and time. The project is developed to create an ideal environment for startups, especially in the fields of technology and innovation – providing modern infrastructure and a strong network of connections, helping young businesses experiment, develop and realize creative ideas, expanding their influence both domestically and internationally.

**OUR**  
SOLUTIONS

Times Zones' core objective is to invest in innovative startup infrastructure: developing a network of offices and workspaces in Vietnam's major cities while expanding to the global market.

# 01

## Green working environment

Modern, environmentally friendly workspaces designed to stimulate creativity and increase productivity.

# 02

## Legal, financial & sales communication consulting

Professional consulting services to solve legal issues, optimize finances and build effective sales communication strategies.

# 03

## Virtual office

Virtual office services at all branches in Vietnam and abroad, helping businesses expand their presence without heavy infrastructure costs.

# 04

## Infrastructure investment & training

Continuous investment in technology infrastructure and in-depth training in finance, sales and digital transformation.

# Services for Businesses

*A full-service ecosystem accompanying businesses from formation to growth and market expansion.*

01

## Company Formation

End-to-end consulting and support for business establishment and registration – fast and fully compliant.

02

## Tax Reporting

Periodic accounting and tax reporting services, ensuring compliance and optimizing financial obligations.

03

## Marketing / Events

Brand building, marketing campaign execution and professional, impressive event organization.

04

## Showcase & Promotion

Product showcase, investment and trade promotion – connecting businesses with domestic and international markets.

# Our Main Space

Times Zones prides itself on providing premium workspaces designed to foster creativity and productivity for startups and tech companies. Our green workspaces create a modern, eco-friendly working environment and the ideal conditions for collaboration and growth. From virtual offices to premium coworking, each location is equipped with advanced technology infrastructure, providing a flexible, convenient and globally connected working experience — where breakthrough ideas are nurtured and turned into reality.

Directly connected to Times Zones offices, shortening the distance between living and working.

## All-inclusive services

Full furnishings, high-speed internet, 24/7 security and on-site operations support.

*Live — work — connect within one ecosystem*

# Connecting the Network

Times Zones cooperates with the Davas Platform network and is oriented toward connecting with VIFC to build a comprehensive connection environment between startups, businesses and investors – fostering the development of the innovation startup ecosystem.

On that foundation, we organize trade and investment promotion activities in combined online and in-person formats, applying technology to accompany businesses and startups in accessing capital, strategic partners and domestic and international markets.
